

SMART Avionics Open House

Dr. James Cistone will discuss how ADS-B fits in the current transformation of Air Traffic Control and the National Airspace System. Dr. Cistone holds a Ph.D. in Aviation from Embry Riddle Aeronautical University, and his career has included many years in positions of technology leadership at Lockheed Martin and its predecessor companies. These include assisting the NextGen Joint Planning and Development Office in writing the National Plan for the Next Generation Air Transportation System. He also is a CFI/CFII and a FAASTeam Representative.

Directions: In the SMART Avionics Hangar

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
