

Arizona Summer Weather Flying and Aircraft Performance & Maintenance

Video presentation and discussion on factors affecting flight safety by considerations of High Density Altitude as Aircraft Performance, Needs for Aircraft Maintenance and elements of survival during the hot and stormy Arizona terrain of mountains and deserts.

Directions: Enter main entrance from east side of 19th Ave., 1/4 mile south of the Deer Valley Rd. Intersection. Turn right into the parking lot west of the facility and park. Walk east across to the building across the parking lot. Entrance is on the west side of the facility and will be illuminated. A guard will direct you to the conference room.

A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
